AUSTRALIA

PREMIUM ACTUATION SOLUTIONS

Motivact Pty Ltd manufacturer's of the Motivact and Rotalin product ranges appoint **Actuation Technologies Australia** as a Distributor of this High Performance Actuation Range, this follows the ATA Strategy of Providing Premium Actuation Solutions for its Customer base.

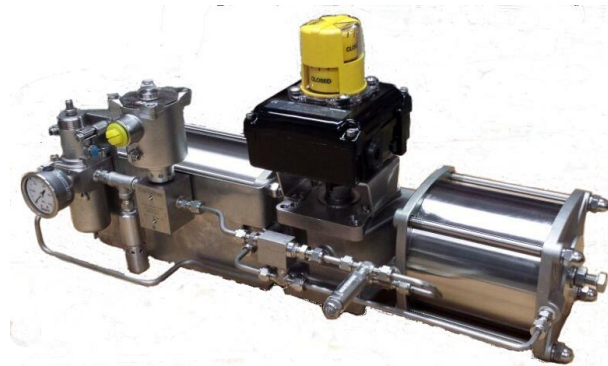

The Motivact Range of High Performance Full 316 Stainless Steel Actuators are ideal for the most corrosive applications within the Offshore / Onshore Oil, Gas Industry, Chemical Processing, Mining and Coastal Salt Spray applications. This combined with the Westlock Controls Range of Switch-boxes and electro-pneumatic positions make a formidable duo for these arduous environments.

MVR Range

MVR Range with Controls

The **Rotalin** Range of Linear Pneumatic Actuators are a unique patented design. With this design you no longer need arms or levers when using Switch boxes or Electro Pneumatic Positioners for control or position feedback of the Actuator on a linear style Valve. The design allows the fitment of any Namur accessory, this simple robust design achieves greater accuracy due to the reduction in hysteresis and also enables the fitment of off the shelf Namur accessories within minutes.
